

Labrador Retriever puppies available

We are small, family run, professional breeders of
Chocolate, Black, and Yellow Labradors.

Welcome to Hidden Pond Labradors, where we bring you the very best genetics available today. We use the highest quality sires, usually Grand Champions, to breed our females. This gives you a quality, healthy, and long living dog to provide years of companionship.

We raise all of our puppies in our home. We play with our puppies, giving you well socialized puppies that are ready to join your family. Our adult dogs enjoy the eighty seven acres that our kennel is located on, in the beautiful Finger Lakes region of NY. The long walks through the field ends at their favorite spot, being Labradors this is the large trout pond that they love to swim in.

With a bachelor's degree in Animal Science and Agricultural Engineering our dogs receive the best care and love possible. We not only bring you strong healthy puppies, we make certain that the mothers get the best care and a happy life. Our dogs are OFA and Cerf tested. Our puppies come with a one year written health warranty, micro chip, veterinarian health certificates and limited registration able with the AKC. This gives you confidence that all of our animals are well cared for. We also have a lifetime placement guarantee so that none of our dogs end up in an animal shelter.

We are proud and pleased to bring you some of the finest chocolate, black, and yellow Labrador Retrievers. If you are looking for exceptional quality in the newest member of your family, these cute, lovable, top quality Labrador puppies are what you are looking for. You can contact us at David@HiddenPondLabradors.com or 607-857-1461

Puppies Available

We are pleased to announce a litter of black Labrador puppies from our dog Apollo and Lydia. Apollo is the brother to the number one Labrador in the country in 2006. He has a big blocky head like Clifford the Big Red Dog. He is very laid back and loving. Lydia is sired by Espresso who is an AKC Grand Champion, as well as a Canadian Champion Labrador. Lydia has a blocky head as well. You can see these traits in these Labrador puppies. They come with a one year written health warranty, Microchip, first shots, and a veterinarian health certificate.
